

# The PRO COPPER® Console

**PRO COPPER® Console Model CC-1050**  
*shown with accessories, radios not included*

**PRO COPPER® Console Model CC-2050**  
*shown with accessories, radios not included*

The **Pro Copper® Console** is the most cost effective, easiest to install **Vehicle Control Center** for law enforcement vehicles in the industry.

The **PRO COPPER Console** comes ready to install out of the box; there are no special face plates, no custom brackets and no special holes to cut. Install the radios while the console is outside the vehicle or put the console into the vehicle first. Either way, you have a clean, professional looking installation in minutes.

It's easy to get started. Simply call our National Distributor, rf Services at 1-**800-446-4969** to establish an account and obtain pricing. Call rf Services for all orders, shipping and billing requirements. The National Distributor is also responsible for assembly and packaging of the Pro Copper consoles. This provides our customers with better service and inventory control.
